

2018 REC LITE **SPARK® TRIXX™**

Play like never before, and easily pull off tricks that will change your riding experience forever. Thanks to three exclusive features, the SPARK® TRIXX™ is the most hair-raising and head-turning ride on the water, now in both two and three passenger versions.

Candy Blue / Chili Pepper ● Orange Crush / Chili Pepper ●

**iTC / iBR / CLCS**

RIDER CAPACITY	SPARK® TRIXX™ 2up 	SPARK® TRIXX™ 3up 
Weight capacity	352 lb / 160 kg	450 lb / 205 kg

DIMENSIONS		
Fuel capacity	7.9 US gal / 30 L	7.9 US gal / 30 L
Length (bumper to bumper)	110" / 279 cm	120" / 305 cm
Width	46" / 118 cm	46" / 118 cm
Weight (dry)	422 lb / 192 kg	438 lb / 199 kg
Storage capacity	0.42 US gal / 1.6 L (GLove box) and 7.42 US gal / 28 L with opt. Front Storage Bin Kit	

**HULL**

Type	SPARK
• Short and light platform	
• Shallow V hull	
• Playful and easy to maneuver	

**ENGINE**

Type	Rotax® 900 HO ACE™
Intake system	Naturally aspirated
Displacement	899 cc
Cooling	Closed-Loop Cooling System (CLCS)
Reverse system	Electronic iBR®
	Electric
	87 octane

HANDLEBAR WITH ADJUSTABLE RISER

STEP WEDGES

EXTENDED RANGE VTS™ (VARIABLE TRIM SYSTEM)

iBR® (INTELLIGENT BRAKE & REVERSE)

EXCLUSIVE COLORATION

REBOARDING STEP (ACCESSORY)

**ENGINE**

899 cc four-stroke, Rotax® with three cylinders in-line and four valves per cylinder

The most compact and lightweight engine on the market today. The Rotax® 900 HO ACE™ incorporates crisp acceleration, impressive fuel economy and an excellent power-to-weight ratio with a top speed of close to 50 mph (80.4 km/h).

iTC™ (Intelligent Throttle Control) system

Operating electronically, this advanced throttle system starts you in neutral for easier dockside starts. It also features activity-specific Touring and Sport modes that can all be set to accommodate your riding style. The result is a more responsive, more intuitive ride.

D-Sea-Bel™ system

Combines a series of resonators and vibration-absorbing components to make Sea-Doo® watercraft some of the quietest on the water.

Closed-Loop Cooling System

Uses coolant to keep the engine running at the ideal temperature, much like a car's radiator. Also keeps out corrosive saltwater and debris.

**FEATURES**

Exoskel™

Is a minimalist architecture that keeps only the essential structural parts in the front section. It reduces the weight while creating a strong, modern and cutting-edge design that defines the unique and playful nature of the Sea-Doo® SPARK®.

Polytec™

Is a recyclable, low density and high-impact composite material that includes polypropylene and long glass fiber reinforcements. It was designed for hull and deck applications to maintain the structural integrity of the watercraft under stress while providing light yet durable parts to support the construction of the product.

iControl®

The "Brain" that integrates and controls all systems to create the best possible ride.

Touring mode / Sport mode

Offers a choice between two throttle responses for different riding styles. Touring mode is the default setting offering a more progressive acceleration curve for a more confident ride – ideal for cruising and 2-up riding. Sport mode can be easily activated by pressing the button under the cluster for 3 seconds. It provides all acceleration performance for a more aggressive throttle response.

Interactive Multifunction Digital Information Center

Touring mode, Sport mode, Fuel level, Tachometer, Speedometer, Hour meter.

**SPARK TRIXX**

**PROPULSION SYSTEM**

iBR® (Intelligent Brake & Reverse) system

First and only true brake on a watercraft recognized by the U.S. Coast Guard for improving boating safety since 2009. The intuitive iBR® allows you to stop sooner for greater peace of mind. All with the squeeze of a lever. And with its electronic reverse, it gives you a level of maneuverability that makes docking easier.

Stainless Steel Impeller

Delivers improved acceleration, higher top speed and less cavitation.

**TRIXX PACKAGE**

Handlebar with Adjustable Riser

This premium handlebar with an adjustable riser made of aluminum is up to 150 mm higher than the regular Sea-Doo® SPARK® handlebar offering multiple positions that give you more leverage to maneuver, lean and play with the watercraft. This system makes it easier to perform tricks and it makes anyone look like a pro on the water.

Step Wedges

Those angled contact surfaces provide stability and more confidence to shift your weight at the rear of the watercraft and allow the rider to actively use the feet to maneuver in different riding positions.

Extended Range VTS™ (Variable Trim System)

The VTS™ normally adjusts the angle of the nozzle to change the behavior of the watercraft and improve parallelism to the water. The Extended Range VTS™ has double the range of the regular VTS™ for the SPARK® so you can exaggerate how high you can raise the nose or how deep you can bury it in the water making performing tricks as easy as it can be.

Exclusive Coloration

**OPTIONS / ACCESSORIES**

- Front Storage Bin Kit
- Front Deflector Lid Kit
- Reboarding Step
- RF D.E.S.S.™ Key (Radio Frequency Identification)
- Depth Finder
- Snap-in Fenders
- Cargo Net
- Side Protector
- Grip Mat
- Sea-Doo® Speed Tie™
- Dry Bag
- Sandbag Anchor
- 12-Volt Outlet and Installation Kit
- Safety Equipment Kit
- Fire Extinguisher
- Sea-Doo® Move Trailer
- Sea-Doo® SPARK® Cover

**WARRANTY**

BRP limited warranty covers the watercraft for one year.
