

## VEHICLE ASSESSMENT SIGNATORY SCHEME

The Vehicle Assessment Signatory Scheme (VASS) is a scheme for the certification of modified, imported, and individually constructed vehicles in Victoria. VASS Signatories are able to issue an *Approval Certificate* for registration purposes in Victoria.

To obtain an *Approval Certificate* you will need to engage the services of a VASS Signatory authorised to certify the class of modification or vehicle for which you need the certificate.

A VASS Signatory who provides an *Approval Certificate* must:

- Personally inspect the vehicle;
- Ensure all work, including any modifications, is correctly carried out; and,
- Certify that the vehicle complies with the applicable Standards.

The VicRoads Copy of the *Approval Certificate* must be presented, together with the vehicle, at a VicRoads Customer Service Centre for registration, or to have its description changed. If the vehicle is to be registered, the usual supporting documentation will also need to be supplied. Refer to VicRoads Website, Registration Requirements.

### Note:

- ❖ Currency of *Approval Certificates*:
  - for **light vehicles** (up to 4.5 tonnes Gross Vehicle Mass (GVM)) the certificate is valid for 30 days from the date of issue of the certificate.
  - for **heavy vehicles** (over 4.5 tonnes GVM) the certificate is valid for 30 days from the date of issue of the certificate. However, this can be extended beyond 30 days provided the vehicle has not travelled more than 1,000 km since the date of issue of the certificate.

- ❖ A VASS Signatory is only approved by VicRoads to issue an *Approval Certificate* in vehicle categories within their expertise. Codes listed against the signatory's name indicate that the signatory can issue *Approval Certificates* in the vehicle categories listed below:

**LV** - Light Vehicles    **HV** - Heavy Vehicles    **MC** – Motorcycles  
**ICV** – Individually Constructed Vehicle    **Imports** – Imported Vehicles

- ❖ For Street Rod Club Permit Scheme (CPS), in the case an application made in respect of a street rod, that is a vehicle modified in excess of the level prescribed in the Vehicle Standards Information Sheet No. 8 (VSI 8) dated October 2011, a *Street Rod Inspection certificate* issued by a VASS authorised to conduct SR inspections is required.

Note: there are 2 categories of inspection for Street Rod Club Permit purposes:  
**SR1 certificate** – Street rod vehicle with no registration history in Australia  
**SR2 certificate** – Street rod vehicle with registration history in Australia being admitted to the CPS for the first time or transfer or ownership within the CPS permit.

**Please ensure that you only contact a VASS Signatory who operates in the vehicle category of your enquiry.**

## LIST OF SIGNATORIES BY LOCATION

Clients are strongly advised to contact Signatories by telephone or email before attending at the addresses shown below.

Issued 16 December 2015

N.B.: Codes listed against the signatory's name indicate that the signatory can issue Approval Certificates in the vehicle categories listed below:

- LV** - *Light Vehicles with GVM up to 4.5 tonnes*  
**HV** - *Heavy Vehicles with GVM over 4.5 tonnes*  
**MC** - *Motorcycles*  
**ICV** - *Individually Constructed Vehicles*  
**Imports** - *Imported Vehicles*  
**SR1 & SR2** - *Street Rod Inspection certificate applicable to the Street Rod Club Permit Scheme (CPS)\* only.      \*refer to front page for further information*
